

Specialist Leader Of Education Profile

Ellie Canham

Background Experience

I have five years of teaching experience, specialising in secondary English across three key stages. As KS5 Curriculum Leader of English, I have had the responsibility of re-designing the curriculum in response to new linear specifications and trends in results for boys and high prior attainers. I have lead and delivered a Saturday School programme for three years, focusing on the literacy development of disadvantaged students. I am now working across Windsor Academy Trust to develop a framework for character education for our secondary curriculum, using the expertise that I have gained from my Masters research into mindset. I have acted as a Pedagogy Champion and a teacher mentor, and have valued every opportunity to collaborate with my colleagues to ensure that every student has access to the best possible opportunities for both their personal and academic potential to be unlocked.
